

Saint Genis Laval,
December 17., 2007

Dear Colleagues,

I would like to draw your attention on the deadlines for candidatures to the Europe/USA fellowship which will be organized by our society in 2008.

Please inform and actively support the most promising candidates of your institution. Without your active coaching potential candidates may remain unrecognized.

Winning a fellowship is not only prestigious for the fellow and his institution; it has been shown to fertilize and facilitate useful scientific exchanges.

Myself and the members of the Education Committee will be pleased to answer to any inquiries.

The application forms are available on our website www.secec.org. Please note the deadline is Feb. 1st, 2008.

We stay at our disposal for any further information and wish you a merry Christmas and a happy new year,

Yours sincerely,

Alessandro CASTAGNA,
Chairman of the Education Committee
